

ESSAY

Explain how the relationship between the town and the university of Chapel Hill changed over time. Use at least **two** details from the account to support your explanation.

The relationship between the town and the university of Chapel Hill changed over time, because more people started to come and it got very crowded. They had to build more buildings so people could attend jobs and be able to work without a lot of people in it. "In 1932, the University of North Carolina was consolidated or joined together, which meant the three campuses would now offer different kinds of programs." Chapel Hill is no longer a small village, but it has preserved a great deal of its original character.
